February 10, 2023

Attention: Madeline Dessert

Subject: January 2023 Monthly Report

On the billing cycle ending on the 22nd of January 14,758,000 million gallons of water were used by our consumers, an average of 492,000 thousand gallons was used per day.

On January 25, 2023, collected the 1st quarter Trihalomethanes (TTHM's) and Haloacetic Acids (Haa5) samples and were sent to Clinical Lab of San Bernardino for analysis. The results came in on February 8, 2023 and were once again below the maximum contaminant levels (MCL) for TTHM's. The running annual average (RAA) MCL for TTHM's is 80 parts per billion (ppb) and we attained 55 ppb for the Mc Cabe site and 45 ppb for the Little Field site. Heber Public Utility District continues to be in compliance with the State and Federal Water Regulations.

On January 13, 2023 Westech completed the rehab on Filter #1. Filter was tested and disinfected. Due to electronic failures, not Westech's responsibility, Filter #1 was placed back in operation on February 2, 2023 after all electronic failures were resolved.

If you have any questions, please contact me at (760) 427-4685
